GREENE LIKES NEW PLACE

Former Superintendent of Insane Asylum Returns on Visit.

Laboratory at Kankakee for Benefit of Doctors in that and Other Asylums in State-New High School Building.

(From a Staff Correspondent.) LINCOLN, Dec. 12 - (Special.) - Dr. James L. Greene, formerly superintendent of the insane asylum here, accompanied by Mrs. Greene, is visiting friends in Lincoln. They will leave Tuesday and before going back to Illinois Dr. Greene may go to Osceola and see former Governor Mickey.

Dr. Greene is now superintendent of an Illinois asylum located at Kankakee and he expressed himself as being will pleased with the place, though his heart still lingers around Nebraska and Lincoln.

'I secured from the legislature an appropriation of \$30,000," said Dr. Greene, with which to establish a laboratory in which to study diseases of the mind. This laboratory is for the benefit of the entire state and is the central workshop of all the insane institutions. All of the asylum physicians of the various institutions took a course in this laboratory. Then Dr. Singer, who was formerly at Norfolk, visits each of the institutions in turn and gives lectures. He remains at each about two weeks. All of the time we have two of the employes of an institution at work in the laboratory for a short period. Then these two give way to others and thus each benefit of the training.

We give employment to a physician when he comes to us with gilt-edged endersements. He becomes an interne. Then by merit he is promoted to a junior assistant physician, then senior assistant, and finally physician in charge. All employment is solely on merit.

'I notice that Dr. Young has recommended the establishment of a central laboratory, and I hope the Nebraska legislature will follow that recommendation. It is a good one.

Nebraska should not change the heads of its asylums every time an administration changes. It is bad for the wards of the state. The physicians should be selected and kept solely under the merit system."
